UltraGlas® — the ultimate in heat-sculpted glass and tile components for all architectural applications

UltraGlas provides the design professional with a virtually limitless palette of possibilities in glass, from subdued textures to ornate art glass — for all environments and applications.

Distinctive three-dimensional characteristics provide a unique lens, through which, or off of which, natural and artificial light come to life, transforming an environment like never before.

Your professional design concepts can now combine architectural form with function in artful ways, made possible only with UltraGlas.

What's New from UltraGlas?

UltraGlasInsights — a library of subject-specific documents covering most topics of interest. Plus **NewImages**, **NewTextures** and more — visit [What'sNew](#).

UltraGlas.com

Here you'll discover the creative latitude of “designable,” embossed architectural glass — and you'll find hundreds of pages of examples, in a logical and easy to navigate site:

*In the “**About UltraGlas**” section, you'll find everything you might want to know about the company and it's products: Contacts; Profile; History; Projects (w/ links to key images); How UltraGlas is Made; UltraGlas Advantages; Uses; FAQ's; Professional Collaboration; Environmental Statement; and information about Dealerships.*

*We have added a new section, entitled “**UltraGlasInsights**” — wherein we offer in-depth discussions of most pertinent subjects of interest (in “pdf” format).*

*In the “**Products Overview**” section, you'll gain a quick understanding of UltraGlas product and usage categories.*

*In the “**What's New**” section, you'll learn about cutting-edge introductions from the primary innovator of slumped glass technology, UltraGlas.*

(more)

In the **“UltraGlasTile”** section, you’ll see images of all 24 designs in our recently introduced **“NeoCollection,”** our expansive line of lustrous, unleaded colors, a new **“Taffeta”** surface textured tile and our **“UltraGlasClassics”** tile textures and designs.

In the **“UltraGlasFlooring”** section, you’ll find a full range of flooring surface textures, standard solid colors and standard color patterns.

In the **“Installation Portfolios”** section, you’ll find hundreds of installation images and descriptions — in 15 key application categories: Accents & Accessories; Balustrades & Stairs; Counters & Bar Tops; Dividers & Screens; Doors & Entries; Flooring; Lighting; Shower Enclosures; Signage; Surfaces; Thematic Artworks; UltraGlasTile; Walls; Water Features and Windows.

In the **“Glass Textures and Designs”** section, you’ll discover images and descriptions of all standard UltraGlas textures — and examples of many standard designs.

In the **“Options and Finishes”** section, you’ll see examples of the many functional and decorative ways that UltraGlas components may be creatively enhanced — in 14 designer-friendly categories: Standard Textures & Designs; Custom Textures & Designs; Glass Size & Thickness; Glass Tints (through-body glass colors); Safety Glass; Hardware Accommodation; Bent Panels; Insulated & Sound-barrier Units; Applied & Monolithic Colorations; Etching & Frosting; Silvering; Metallic Leafing and Appliques and other Specialty Finishes.

In the **“Specifications and Ordering”** section, you’ll find everything you’ll need to know in order to facilitate the perfect solution for your latest and greatest projects — in 12 sub-categories: What is UltraGlas? How is it made?; UltraGlas Usage; UltraGlas Advantages; General Information; Our Monolithic Color Process; Design Flexibility & Collaboration; About Standard Mold Sizes; Ordering Guidelines (including example illustrations); Installation & Care; Submitting Digital Artwork; How to request a Quotation and Contacts.

In the **“Quick Response”** section, you’ll find e-mail links that will permit near instant access to expedited services, such as information and answers, samples acquisition, quotations and ongoing project tracking.

Looking for something very specific? — you can even access an **UltraGlasInsights** document that will help you locate specific subjects, images and information.
